

MEDTECH PATHWAYS 2026

55 scholars · 8 CARICOM nations · the Caribbean's AI talent pipeline

Caribbean talent is world-class. Pathways into AI are not — yet. CariSurg fills that gap. A UK not-for-profit training the region's top STEM graduates in applied healthcare AI and surgical robotics, so the next wave of Caribbean AI capability is **built at home, not imported**. 55 scholars confirmed across 8 CARICOM nations for 2026. You have the opportunity to be the lead partner powering the Caribbean's AI talent pipeline, and name what comes next.
